

INTRODUCTION

Our Premium Branding package allows for packing slips, card inserts, and stickers in full color. Below are the specifications for each asset of the Premium Branding package. Be advised images submitted should adhere to the image specifications provided for optimum results. PSD templates have been provided to help you set up your files. Be sure to delete layers labeled [Delete This Layer] before saving your JPEGs.

PACKING SLIP

The Packing Slip is a two sided, full color document that supports two images. The images should be JPEGs with the following specifications: 8"x10.5" @ 300 DPI (2400px x 3100px). Refer to the PSD templates. Notice the front template has a portion of the image reserved for the order details. That area should be blank/white in your final JPEG file otherwise it may be "double-printed". Packing slips are printed in a portrait orientation. All packing slips will have a 0.25" white border outside your image.

CARD INSERT

The Card Insert is a two sided, full color document that supports two images. The images should be JPEGs with the following specifications: 5"x8" @ 300 DPI (1500px x 2400px). Files can be submitted in both portrait and landscape orientations. All Card Inserts will have a 0.25" white border outside your image.

STICKER

The Sticker is a one sided, adhesive backed, full color document that requires one image. The image should be a JPEG with the following specifications: 4.25"x6.25" @ 300 DPI (1275px x 1875px). This file can be submitted in both portrait and landscape orientations. Notice the ruler guides that indicate the portion of the provided image that will be used to produce a full bleed. Critical design components should not be placed in this area as they may not show up on the sticker adhered to the outside of the package.

LOGO

A Logo is displayed on the back of a print either through direct printing or through a sticker that is adhered. A single image is required and should be a JPEG with the following specifications: 0.67"x3.33" @ 300 DPI (200px x 1000px). The logo is printed in a landscape orientation.
